Confirmed.

The President brought to the notice of the Council an article in the *Sampadabhyudaya* of the 29th May 1925, containing misstatements regarding a bill for metal collected on the Karohatty Road, which was before the Managing Committee. The Municipal Engineer's memo of the same date asking that action be taken in respect of the damaging remarks made on his Department in the said article and requesting permission to proceed against the Editor of the paper, was also read.

The discussions made it clear that the bill had been deferred for inspection by the Managing Committee, on 26th May 1925. Some of the members who tried to inspect the same evening could not reach the work spot; but the following morning, the Chairman and some members saw the work and were satisfied with the correctness of the bill which was therefore to come before the next meeting of the Committee.
